In 1947, Zionists owned a mere 7% of Historic Palestine (dark grey)

Prepared by Sami Deeb
April, 2002

In 1947 UN proposed Partition: 44% (yellow & dark green) to Palestinians - then 70% of population- and 56% (light green) to Zionist settlers - then 30% of the population.

“Problem”: 45% of population of Jewish-designated areas was Palestinian (non-Jewish)!

Areas conquered by Jewish forces by May 14, 1948; Palestinian population there largely terrorized into fleeing. This was BEFORE Arab forces tried to intervene.

**During 1948, 531
Palestinian villages
were depopulated,
418 of which
destroyed by Israel
inside and outside
Partition lines.**

At end of 1948, Zionists controlled 78% (56+22) of Palestine (light and dark Green); 726,000 Palestinians made refugees

In 1967 Israel conquered the remaining 22% of Palestine: Gaza (G) & the West Bank (WB) including East Jerusalem (EJ). Israel immediately began building settlements in 1967
